The Chamber's newly revised website has generated a lot of interest.

We are pleased to offer these introductory advertising opportunities.

The old website generated up to 10,000 visitors per month. Growth from the same period the year before was an average of 15% for 2006-2007 and 30% 2007-2008.

The newly designed website is more resident and visitor friendly, offering sign up for eBlasts along with more accessible community and event information.
